## PROJECTS

### MYSHOESITE – SHOE ORDER WEB APPLICATION DEC 2022 – FEB 2023

MYSHOESITE is a Dynamic Web Application that I have developed where users can buy shoes online.

User can create his account, select the category of shoes, use the add to cart feature and can place an order.

The admin can Add, update, delete

New admin, different shoe categories, shoes and can update orders which are placed by a customer.

Technologies - PHP, MYSQL, HTML, CSS, BOOTSTRAP.

**Website Link:** [myshoesite.zya.me](http://myshoesite.zya.me)

### PERSONAL WEBSITE OCT 2023 – NOV 2023

It is a personal website that I have developed to show my skills and for creating online presence where people can get information about me, my skills and get connected with me.
